

Lucas Martins Lemos de Moraes

Senior Product Designer

Product Strategy | Product Discovery | UX Strategy | Fintech | B2B Commerce

Belo Horizonte, Minas Gerais, Brazil | lucasmilmoraes@gmail.com | [linkedin.com/in/lucasmilmoraes](https://www.linkedin.com/in/lucasmilmoraes)

Strong English (Full Professional) | Dual Citizenship | International Experience

PROFESSIONAL SUMMARY

Senior Product Designer and systems thinker with 7+ years of experience transforming complex business problems into scalable digital products across Fintech, B2B Commerce, Restaurant Technology, and Conversational AI.

Experienced in leading Product Discovery, defining UX strategy, and partnering with Product Managers, Engineers, and business stakeholders to design intuitive customer experiences that drive measurable business outcomes.

Known for simplifying complex product ecosystems, aligning cross-functional teams around shared outcomes, and translating customer insights into scalable product strategies through research, experimentation, and iterative design.

PROFESSIONAL EXPERIENCE

dti digital

Senior Product Designer

April 2021 - Present | Belo Horizonte, Brazil (Hybrid | International Projects)

Lead Product Design for complex B2B, Fintech, Restaurant Technology, and enterprise digital products, partnering with Product Managers, Engineers, and business stakeholders throughout Product Discovery, delivery, and continuous product evolution.

Defined UX strategy by combining customer research, journey mapping, behavioral data, and business goals to create scalable digital experiences that balance usability, operational efficiency, and measurable business outcomes.

Drove end-to-end Product Design activities including discovery, ideation, user flows, prototyping, validation, design handoff, and iterative improvements within cross-functional agile squads.

Key Contributions

- Increased checkout conversion by 33% through the redesign of critical purchasing journeys, reducing friction across transactional flows and improving the overall customer experience.
- Increased feature adoption by 30% while improving authentication rates by 10% by redesigning login and loyalty experiences based on customer behavior analysis and usability findings.
- Reduced content management effort by 75% through the redesign of a scalable multi-brand CMS, replacing complex legacy workflows with reusable component architecture that enabled faster and more consistent content operations across multiple restaurant brands.
- Led the Product Design strategy for initiatives spanning e-commerce, internal enterprise platforms, analytics products, mobile community applications, and content management systems serving international markets.
- Facilitated Product Discovery workshops, design sprints, collaborative ideation sessions, and stakeholder alignment meetings, helping multidisciplinary teams define product direction, prioritize opportunities, and make informed design decisions.
- Partnered closely with Product Management and Engineering to translate customer problems into scalable product solutions, balancing user needs, business objectives, and technical feasibility throughout the development lifecycle.
- Established customer journeys, user flows, information architecture, and interaction models that improved product usability while supporting long-term platform scalability.
- Contributed to the evolution of Design Systems and reusable component libraries, improving consistency across products and accelerating design and development workflows.
- Mentored Product Designers through design critiques, workshop facilitation, discovery practices, and end-to-end Product Design processes while contributing to Design Operations initiatives within the Design Guild.
- Presented design rationale, research findings, and strategic recommendations to stakeholders, influencing product decisions through storytelling, customer insights, and measurable product outcomes.

Avenue Code

Product Designer

November 2019 - April 2021 | Belo Horizonte, Brazil (Consultancy)

Designed conversational digital products for enterprise clients across manufacturing, technology, and industrial sectors, partnering with multidisciplinary teams to transform complex customer service journeys into intuitive conversational experiences.

Collaborated closely with Product Managers, Engineers, Business Analysts, and commercial stakeholders to define product requirements, customer journeys, conversational flows, and scalable interaction models for enterprise platforms.

Key Contributions

- Designed end-to-end conversational experiences for multiple enterprise clients, creating user flows, interaction models, conversation architecture, and messaging strategies across WhatsApp, Facebook Messenger, Google Business Messages, and web platforms.
- Facilitated discovery workshops, requirement gathering sessions, and collaborative design activities that aligned business objectives, technical constraints, and customer needs before product development.

- Worked closely with Engineering teams throughout implementation, validating conversational flows, refining product behavior, and iterating solutions based on user feedback and business priorities.
- Helped organizations automate customer interactions while improving usability, reducing friction, and creating more consistent digital support experiences.
- Supported Design Operations initiatives as a Design Buddy, mentoring teammates, facilitating knowledge sharing, and contributing to career development conversations alongside Design Leadership.
- Contributed to cross-functional product discussions by presenting design rationale, customer insights, and solution trade-offs to both technical and non-technical stakeholders.

Paiva Piovesan Softwares

Visual Designer

January 2019 - November 2019 | Belo Horizonte, Brazil

Owned Product Design activities for B2B financial software, leading Product Discovery, user research, usability testing, interaction design, and interface design for web and mobile products serving business customers.

Partnered directly with company leadership, Engineering, and product stakeholders to improve complex financial workflows while introducing more user-centered product development practices across the organization.

Key Contributions

- Designed web and mobile experiences for the company's flagship Fintech platform, simplifying financial operations and improving usability across Android, iOS, and desktop applications.
- Conducted qualitative user research, usability evaluations, and workflow analysis to identify customer pain points and translate insights into product improvements.
- Defined user flows, wireframes, interactive prototypes, and high-fidelity interfaces for new features and product enhancements throughout the entire design process.
- Introduced agile product development practices within the software engineering department, acting as Scrum Master and improving collaboration, planning, and delivery predictability across multidisciplinary teams.
- Helped establish Design as a strategic function inside the organization by advocating for user-centered decision making and closer collaboration between business and technology teams.

Paiva Piovesan Softwares

UX/UI Design Intern

June 2018 - December 2018 | Belo Horizonte, Brazil

Supported the design of financial software products by assisting with user research, wireframing, interface design, and prototype creation for web and mobile applications.

Collaborated with senior designers and developers to improve customer journeys, simplify transactional workflows, and reduce usability issues through iterative design and continuous feedback.

Key Contributions

- Assisted in planning and conducting qualitative user research activities.
- Produced wireframes, mockups, and interactive prototypes for new product features.
- Supported usability improvements across financial products by translating research findings into interface enhancements.
- Participated in design reviews and collaborated closely with Engineering during implementation and validation.

Walt Disney World

International Cultural Exchange Program

December 2014 - February 2015 | Orlando, FL, USA

Selected for one of Disney's highly competitive international programs, collaborating within multicultural teams in a fast-paced, customer-centric environment.

Delivered high-quality guest experiences while developing adaptability, resilience, communication, and problem-solving skills under constant operational pressure.

Worked alongside professionals from multiple countries, strengthening cross-cultural collaboration, bilingual communication, and service excellence in one of the world's most recognized customer experience organizations.

EDUCATION

Postgraduate Specialization in Interaction Design

Pontifical Catholic University of Minas Gerais (PUC Minas) | 2019 - 2020

Bachelor's Degree in Graphic Design

Universidade do Estado de Minas Gerais (UEMG) | 2014 - 2018

CORE COMPETENCIES

Product Strategy & Discovery: Product Discovery | UX Strategy | Customer Journey Mapping | Opportunity Identification | Design Thinking

Research & Validation: Qualitative Research | Usability Testing | Data-informed Design | Experimentation

Product Design: End-to-End Product Design | Interaction Design | Design Systems | Prototyping

Leadership: Cross-functional Collaboration | Stakeholder Management | Workshop Facilitation | Mentoring

Industries: Fintech | B2B Commerce | Restaurant Technology | Enterprise Platforms

TOOLS

Design & Collaboration: Figma | FigJam | Sketch | Adobe Creative Cloud

Research & Product: Maze | Azure DevOps | Confluence | Google Analytics

AI-assisted Design Workflow: ChatGPT | Claude | Gemini Notebook | Lovable | Figma Make | Figma MCP

LANGUAGES

- Portuguese - Native
- English - Full Professional Proficiency (C1)
- German - Basic Professional Proficiency (A2)
- Spanish - Limited Working Proficiency

CERTIFICATIONS

- Qualitative UX Research
- Design Thinking Facilitation
- Design Sprint

AWARDS & RECOGNITION

Microsoft Students to Business (S2B)

Selected among the top participants in Microsoft's Students to Business (S2B) program, receiving recognition for technical and professional excellence.
